### **REASONS FOR ALLOWANCE**

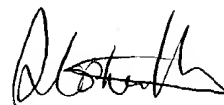

1. The following is an examiner's statement of reasons for allowance: the method for classifying documents that includes the steps of analyzing the contents of the documents based on the keywords to derive a topic of the documents, and classifying the documents based on the topics, was known in the art. However, the method of classifying documents by analyzing the contents of the documents within a user's directory structure to determine a plurality of document classes indicating a user approach to placing documents in the user's directory structure, and by storing the unclassified electronic documents in one or more directories within a directory structure, copied from the user's directory structure, based on the classification of the documents generated by the textual profile and the graphical profile of the documents and by the document classification profile, which is associated with the copied directory structure and based on the document classes in the user's directory structure, to resemble the user approach to placing the documents in the user's directory structure, was not disclosed by the prior art of record, and would not have been obvious to a person of ordinary skill at the time of the invention in view of the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
